XVIth IUBMB INDIA

16th International Congress of Biochemistry and Molecular Biology
New Delhi, India
19-22 September 1994

DR HARMON C McALLISTER
Research Director
The Council for Tobacco Research USA Inc.
900 Third Avenue, New York
New York 10022
USA

Feb 7, 1994

Detailed program is included and is extensive
International Representation

Dear Dr McAllister,

India has been bestowed upon the privilege of hosting the 16th International Congress of Biochemistry and Molecular Biology, at New Delhi during September 19-22, 1994. This is the most important forum for all outstanding scientists to exchange the latest findings in the frontier areas of modern biology and biotechnology. Eminent biologists and biotechnologists from all over the world and leading Corporate bodies engaged in research in these areas will participate in the Congress. This Congress has been approved by the concerned Ministeries of the Government of India.

The Congress will strengthen the research efforts of the Indian Scientists working in these vital areas. A brochure highlighting the salient features of the Congress is enclosed. The Congress is expected to attract at least 5000 scientists from different parts of the world. These will include several Nobel Laureates and leading scientists. An ambitious scientific programme has been drawn up. This includes:

- Six plenary lectures by two Nobel Laureates and four other renowned scientists

- 75 symposia wherein about 80 Indian scientists will present their work along with 350 well-known scientists from all over the world

- Poster sessions where more than two thousand research scientists will present their latest findings in their areas of specialisation

An international scientific exhibition will also be held at the time of the Congress.

It is proposed to offer Fellowships to several young scientists of India and other developing countries to enable them to participate in the meetings. This will provide the right impetus to aspiring scientists to forge ahead in their scientific endeavours.

Organising the Congress on this scale is possible only with the active co-operation of organisations such as yours. We recognise the pivotal role of your organisation in the advancement of science and technology. We hope you will extend your financial support to the Congress.

1. A contribution of Rs.3 lakhs (US $ 10,000) entitles you to:

(i) nominate a member of your organisation to attend the Congress as a delegate

(ii) receive all publications of the Congress

(iii) publish a one page colour advertisement in the souvenir to be issued at the time of the Congress

OR

2. We are aware that your company has great and vital interest in the area of Biochemistry and Molecular Biology, both of fundamental and applied nature and we look forward to support from your company in the form of either travel grants to speakers or donations to the Organising Committee of the Congress. The total cost of a symposium would be around $15,000.

a. A contribution of $10,000 would enable us to acknowledge in all publications relating to the Congress your assistance by indicating as follows: Symposium.....; Sponsored by.

b. A contribution of $5000 would enable us to indicate your support as follows: Symposium.....; Partially sponsored by

c. You could also support the travel and hospitality expenses of one or more participants to the meeting at $2500 per participant.

Cheques may be made payable to **AMERICAN EXPRESS BANK LTD., NEW YORK FOR CREDIT TO A/C NO. 611681 UID NO. 049837 OF AMEX NEW DELHI - FOR CREDIT OF XVI INTERNATIONAL CONGRESS OF BIOCHEMISTRY AND MOLECULAR BIOLOGY - DOLLAR ACCOUNT MAINTAINED AT AMERICAN EXPRESS BANK, NEW DELHI**

I am enclosing herewith a second circular, a brochure and a list of symposia being organised at the Congress.

Looking forward to your positive response,

Yours sincerely,

(N.APPAJI RAO)
Secretary General
